Office: A-207, Eastern Business District, L.B.S. Road, Bhandup (W), Mumbai-400078. India

Problem Statement

- 1. In a pdf/image identify if a stamp exist in the document and if found check how many of them and count of unique stamp in doc
- 2. Extract data from a graphically represented data from a pdf and store it in table format (the output can be either excel or word file in which data will be extracted and updated)
- 3. Extract table data in correct format from a document in correct sequence, the expected output will be comma separated data in json format with key as column name

Note: Sample documents are given to test it

ALL THE BEST!
